# STRONGER TOGETHER: EIGHT KEY LEARNINGS FROM THE VENRO NGO REPORT ON ADVOCACY

Our recently published **NGO-Report “We get involved – Advocacy in development co-operation of non-governmental organisations”** (available in **German** and **English**) shows examples of different advocacy strategies and approaches of Northern and Southern NGOs, their successes and challenges.

In this 90-minute-online event, we will present the 8 key learnings from the NGO Report and try to tackle these questions: What makes advocacy projects successful? How can NGOs take on these challenges? What do effective partnerships between NGOs from the Global South and North look like?

The event is for NGO employees and volunteers involved in development projects and programmes or advocacy.

Participation is free of charge. Please register online until 18 August 2022. Log-in details will be sent to registered participants prior to the workshop. The Online-Seminar will be in English.

Please feel free to share this invitation with your partner organisations.
